We counted owls and played a game with a friend that involves rolling a die and putting that many oranges on a tree. We enjoyed an octagon color game. We practiced writing 9's.

"R" & "#10" WEEK-Our color was gray and our number 10 is diez in Spanish. In addition to our regular choice works, we matched rain drops to the correct numbered umbrella. We counted reindeer and rings.

"J" & "#11" WEEK-We reviewed all of our numbers from 0-20, concentrating hard on those teens! Our shape was a pentagon. We enjoyed modeling a jack-o-lantern. We enjoyed jewels, jingle bells and unifix cubes. We introduced the knobless cylinders this month as a new choice work as well.

Merry Christmas!

SCIENCE & GEOGRAPHY & SCIENCE

"O" WEEK-We named the big masses of salt water surrounding our continents-oceans. We named the Atlantic, Pacific, Indian & Arctic. We studied many ocean creatures. We learned that an octopus has 8 arms and is found in the ocean. All living things need oxygen!

"R" WEEK-We explored with rocks in our classroom and discovered that they can be found everywhere. They come in all shapes and sizes. Our Earth is made mostly of rocks-under the land & all the water in the world. We learned many interesting facts about reptiles. We learned they have rough, dry, scaly skin and are cold blooded. We also visited the rainforest and learned about rain and rainbows.

"J" WEEK-We learned that Jupiter, the fifth planet from the sun, is covered with a lot of volcanoes. Jupiter is the largest planet in our solar system. It would take us 18 years to travel to Jupiter-wow! We learned that a jungle is a home for many animals. A jungle is made of many plants and trees. We explored under the sea and learned about jellyfish. Jellyfish live in the ocean and communicate through colorful chemicals circulating through their bodies. We explored with magnets & jingle bells & filled jars with pom-poms to make a snowman.

Happy Holidays!
